

DIFFERENT USES FOR:

Included in this download is a 3-up handout for you to share with your customers to plant the seed for ways to use 108" fabric you have in stock. You can add your logo to the top right of the handout if you'd like to customize them.

Also included with this download is a Word doc for you to use to copy and paste the information into a handout you have designed.

This page has been included to use as a cutting guide for the 3-up handout page.

From the team at FabShop

CUTTING GUIDE

DIFFERENT USES FOR:

108"

WIDE BACKING FABRICS

- Backing for quilts
- Whole cloth quilt
- Background fabric in your quilt
- Binding
 - Quilt binding that matches the back
- Extra piecing fabric for the front of the quilt. Some 108" fabric may be more affordable, as one yard is equal to about 2.5 yards of regular width fabric.

- Home decor:
 - Curtains
 - Tablecloth
 - Table runner
 - Duvet cover
 - Bed skirt
 - Chair upholstery
 - Matching cushions and pillows

TIP: Wide backs often have a higher shrinkage percentage than most regular quilting cottons. Pre-washing will prevent disappointing distortion or puckering before it is attached to your quilt top. Pre-washing your quilt top and backing fabric will give you the best outcome.
